ARCHITECTURAL PROFESSIONAL | BIM & PROJECT COORDINATION

PROFESSIONAL SUMMARY

Architectural professional with a Master of Science in Architecture and Environment and experience directing an independent design practice. Brings a strong foundation in sustainable design, urban planning, construction documentation, and full-lifecycle project coordination. Currently advancing Autodesk Revit, BIM coordination, and U.S./California building-code knowledge for Bay Area project teams.

CORE CAPABILITIES

Architectural design	Construction documentation	Project management
Urban planning	Environmental design	Cross-functional coordination
AutoCAD	3D modeling	Blueprint reading

PROFESSIONAL EXPERIENCE

Principal Architect & Founder

Independent Architectural Firm | Algeria

- Led architectural design and project management from early concept through documentation and delivery.
- Developed construction documents, schematic designs, and 3D models using AutoCAD.
- Coordinated structural and mechanical disciplines to integrate building systems into architectural work.
- Managed project schedules, resource allocation, design milestones, and budget considerations.
- Applied municipal, structural, and environmental requirements to practical project decisions.

SELECTED PROJECT

Maison des Jeunes - Public Youth Center Study

Ain Zerga, Tebessa, Algeria

- Developed a two-level public youth-center study for a prominent urban corner site.
- Separated pedestrian and vehicle circulation and organized parking around a civic forecourt.
- Explored facade identity, daylight, landscape integration, and buildable orthogonal massing through architectural visualization.

EDUCATION & CREDENTIALS

Master of Science in Architecture and Environment

Larbi Tebessi University of Tebessa, Algeria | 2016

Diplome d'Etat d'Architecte

Larbi Tebessi University of Tebessa, Algeria | 2015

Credentials evaluated and authenticated by World Education Services. U.S. equivalency includes bachelor's and master's-level study.
